Novo Unity™ PRO

Novo Unity™ Pro delivers a seamless, modular ETG experience that adapts perfectly to any casino floor. Available as a 6-terminal or 12-terminal configuration, and infinitely expandable through its modular architecture – each setup includes one live roulette wheel, ensuring instant playability and effortless scalability. Designed for maximum flexibility and performance, Novo Unity™ Pro supports up to 40 games per terminal, integrates smoothly with existing systems, and provides real-time management, reporting, and customization options. Whether starting compact or growing into a large-scale arena environment, Novo Unity™ Pro combines innovation, reliability, and player engagement in one powerful platform.

ETGs Connect

Wide Area Network

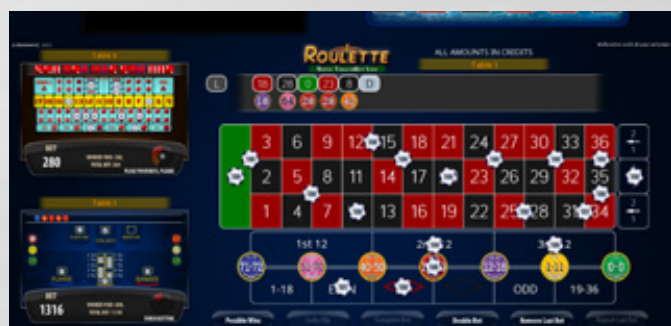

Connect every ETG terminal – across the floor, across town, or across locations – in perfect real time. Stream a single live dealer to thousands of screens with near-zero latency, or weave multiple properties into one friction-free ecosystem. Every bet stays crystal-clear and perfectly synchronized. With WAN connectivity and live streaming at its core, this solution transforms scattered setups into a single, immersive stage. Operators gain centralized control, reduced operational overhead, and flexible scalability – while players enjoy a seamless, high-stakes experience wherever they play.

Simultaneous Betting

This enhancement to the multi-game capabilities of Novo Unity™ Pro unlocks a new level of game turnaround by enabling guests to actively participate in up to three electronic games at the same time, including Roulette, Baccarat, Black Jack 3 Hand or Sic Bo, all operated from a single terminal. Extra game windows on the betting screen allow seamless switching between available titles and formats such as TouchBet®, Multi- or Flying versions. This creates higher game frequency, more hands per hour, and a noticeably greater degree of player autonomy.

Executive SL 1.27

FVC28A – Premium Player Terminal

Maximum player comfort and ergonomics and the game presentation in premium-style combine perfectly in this elegant ETG slant top. The Executive SL 1.27 is a prime choice for a modern ETG offering.

Variety of Roulette Options for your Casino Floor

The Novo Unity™ Pro electronic table games are available in a variety of game versions that cater to the individual requirements of modern casino floors. Options include fully automated game versions, entirely virtual versions as well as the possibility of connecting the ETG terminal to a live table game.

ELECTRONIC LIVE ROULETTE

- Connects all terminals to a dealer-operated live Roulette table
- Novo Dealer Board increases game speed and minimizes errors
- Wheel sensors broadcast winning numbers
- Live camera broadcast

ELECTRONIC AUTOMATED ROULETTE

- Connects all terminals to a fully automated Roulette wheel
- No dealer required – no disputes over bets placed
- Fully random wheel operation and live camera broadcast

ELECTRONIC VIRTUAL ROULETTE

- Connects all terminals to a fully virtual Roulette game
- No dealer required – no disputes over bets placed
- Fully random RNG and virtual live display of bets placed

Lucky Lady's™ Roulette

Higher Multiplier Roulette

Lucky Lady's Roulette

Lucky Lady's™ Roulette is an exciting new version of the Roulette game, where the Lucky Lady adds a little touch of extra Charm. Players place their bets as normal on the layout with the same odds as a traditional Roulette game on all outside bets and splits, the exception being that straight number bets pay-out at 30 for 1.

In each game, after betting is closed and while the Roulette ball is still spinning, the Lucky Lady picks 1-4 random LUCKY LADY BONUS NUMBERS (from 0-36), with bonus multipliers totalling 210x stake for straight numbers, displayed on magic spheres.

Bonus multipliers total 210 x stake.
Only straight number bets on these highlighted numbers can win with the respective bonus multiplier.

If the game result matches a bonus number and the player has bet on that number, they win
(30 x straight bet) + (bonus multiplier x straight bet)

Lucky Lady's™ Roulette is available for all Roulette variants of the NOVOMATIC ETG offer based on Novo Unity™ Pro: Novo Multi-Roulette, Novo TouchBet® Roulette and Novo Flying Roulette™ in 0/00 versions.

GOING FOR GOLD™

Roulette Jackpot Side Bet

These jackpot side bet winning chances add some extra thrill to the classic Roulette game! GOING FOR GOLD™ is a multi-level jackpot side bet, set up as a Local- or Wide-Area Progressive offer for all connected Roulette games.

Additionally to their classic Roulette bets, players can also choose to buy and place a certain quantity of side bet tokens on the Roulette numbers of their choice, thus participating in the jackpot game. The winning number for the side bet is the same as for the traditional game.

Players enter the jackpot race by buying a token and placing it on a number. If their number hits, they unlock the next jackpot tier – e.g. win Iron to move up to Bronze, and so on.

The number of jackpot levels, denomination of the jackpot tokens and individual win values for the jackpot levels can be adjusted according to operator preferences in the menu settings.

GOING FOR GOLD™ is available for all Roulette variants of the NOVOMATIC ETG offer based on Novo Unity™ Pro: Novo Multi-Roulette™, Novo TouchBet® Roulette and Novo Flying Roulette™ in 0/00 versions.

Electronic Table Games

Unique Table Game Variants

BLACK JACK

Blackjack Pro offers a unique twist on classic gameplay with community card logic, independent actions, and an optional three-hand mode for increased player engagement. Multiple rule sets, side bets like Perfect Pair, Spread, and Poker, plus full multigame integration ensure maximum flexibility. Touchscreen betting, multi-language support, and Blackjack-only configurations round off this customizable solution.

BACCARAT

Baccarat offers Classic, Pairs, and Royal variants plus four tie bet options. Operators can enable side bets like Player/Banker Pair or Royal Match. Fully customizable in layout, colors, commission, and stats – with multilingual support and flexible betting fields for any environment.

SIC BO

NOVOMATIC's electronic Sic Bo fuses classic dice excitement with cutting-edge efficiency. Live connectivity ensures faster rounds and fairness, while multilingual stations offer seven layouts, video and instant stats. Operators gain cleaner data, fewer disputes and higher turnover – tradition re-imagined, profit optimized.

Slot Games for ETGs

Classic hot slot mixes for multiplayer game enthusiasts. A unique feature of the Novo Unity™ Pro system is the flexible interconnection of a great variety of electronic live games and slot games on a large number of individual player stations. This multi-game functionality allows the operator to link any chosen number of terminals to different games and game versions of Roulette, Baccarat, Black Jack, Sic Bo and Bingo as well as a great slot games offering within one installation.

Novo Unity™ Pro Features

Scalability

Novo Unity™ Pro adapts seamlessly to your floor configuration. Modular Setup: Connect additional terminals and components at any time using the same infrastructure, with capacity for up to 40 games per seat and stadium-ready performance. 8 Pod Island: Start with the out-of-the-box solution of eight linked terminals that are instantly operational and easily expandable to an Arena Setup. Two setups. One system. Modular. Expandable. Limitless.

Novo Unity™ Pro DBS

Centralized control and configuration for all connected terminals.

Capabilities:

- Manage camera feeds, animations, and statistical displays
- Activate or deactivate games in real time
- Adjust minimum and maximum bet limits

Create terminal groups for dedicated gaming zones or differentiated bet structures e.g. floor position, promotions, VIP areas

Secured Systems

Novo Unity™ Pro multi-layer security architecture locks down hardware against tampering, shields software logic and data, and encrypts every signal from terminal to server. Power Failure Protection: Fail-safe technology keeps the system operational during interruptions, ensuring a secure and controlled shutdown.

Reporting & Data Storage

The integrated Management Console delivers full real-time and historical reporting, giving authorized managers and technicians browser-based access across the entire gaming setup.

Highlights:

- Centralized data storage with daily backups (schedule fully configurable)
- Live reports, performance statistics, and financial overviews

Customization & Connectivity

- Multilingual Support – Full text and speech coverage for international markets
- Table Settings – Up to 6 tables per ETG, configurable in live, automatic, or flying mode, each with individual denominations
- Tipping Function – Optional tipping for live table dealers
- Custom Branding – Change backgrounds with your own graphics or casino logo
- Zero Credit Behavior – Flexible settings to maintain terminal appeal when no credits are available
- Flexible architecture for seamless integration into existing systems
- Real-time data interface (MSPy) for exposing game results, phases, and statistics on online platforms
- Supports hybrid setups – land-based infrastructure powering online gameplay
- Integration with live components (Card Shoes / Shuffler, Roulette Wheels)

LOTUS ROULETTE™ Genius

FA862 – powered by Impera

Impera Roulette Games

Lucky Lady's™ Roulette

With Impera's latest version of Impera Line™, multiplayer systems with up to 255 terminals can be set up and offer two different multiplayer roulettes, in addition to the comprehensive portfolio of more than 70 games from its successful Impera Line™ HD Edition 9. The Multi-Roulette Version 1 includes LOTUS ROULETTE™ and Lucky Lady's™ Roulette. Lucky Lady's™ Roulette is an exciting new version of the Roulette game, where the Lucky Lady adds a little touch of extra Charm. 1-4 randomly selected Lucky Lady's bonus numbers pay out with increased odds of up to 210 x the bet for straight numbers only.

River Queen™ Roulette

The Multi-Roulette Version 2 includes LOTUS ROULETTE™ and River Queen™ Roulette, where the majestic Mississippi sets the stage for this captivating Roulette experience. River Queen™ Roulette brings an extra dash of charm to every spin. 1-4 additional randomly selected River Queen™ bonus numbers pay out with increased odds of up to 210 x the bet for straight numbers only.

LOTUS ROULETTE™ Jackpot

In addition to betting with the regular chips, players can also bet on any number with a special JACKPOT chip to play for the MINOR BONUS, the MAJOR JACKPOT and the GRAND JACKPOT. The side bet is won if the chip has been placed on the traditional winning number and matches with the lucky numbers of the respective wheel sections for the jackpots. The higher the jackpot level, the more matches are required, while the wheel sections of lucky numbers get consistently narrower.

NOVOVISION™ Casino Management Solution

Built on the latest cutting-edge technologies, NOVOVISION™ is a revolutionary casino management system with extensive features that cover all areas of a modern casino operation. Its system architecture is designed to handle high-volume transactions while ensuring maximum security, data integrity and regulatory compliance. The modular design of the system allows for absolute flexibility and effortless customization based on the operators' needs and legal obligations: Operators can opt for individual modules and gradually expand their system according to operational or legal requirements across the various fields of gaming: slots, live tables, online gaming and sports betting.

The high system scalability qualifies NOVOVISION™ to perfectly suit any size of operation – from small single-site venues to large casino operations – and any cash system requirement (TITO, Cashless or biometrically supported). The many extended functionalities for sophisticated player tracking, loyalty and promotions also have a significant impact on revenue growth.

The NOVOVISION™ Casino Management System provides a powerful tool set that allows operators to streamline their processes, increase operational security and maximize the gaming experience for their guests.

In 2023, NOVOVISION™ was awarded the "Best CMS" at the European Casino Awards. Worldwide, some 30,000 gaming machines, 3,000 betting terminals and 1,300 cash machines are operated via NOVOVISION™, and more and more operators are opting for this comprehensive software solution.

NOVOVISION™ core

Your secure high-efficiency casino management

The key benefit of proficient casino management is improved operational efficiency and security. The automation of time consuming casino management tasks through the basic NOVOVISION™ system functionalities enables the operator to focus on providing the best possible and welcoming customer journey with smooth entry procedures, premium customer service and a personalized gaming experience. NOVOVISION™ monitors gaming activity and transactions in real-time, granting the operator not only full administrative and operational control of his business but also enabling them to immediately identify and respond to any potential security threat.

The NOVOVISION™ system architecture is designed to ensure full compliance with all regulatory requirements, including GDPR, AML, and KYC, through features such as data protection, consent management, transaction monitoring, customer identification, due diligence, and record keeping.

SLOTS MANAGEMENT & FLOOR CONTROL

NOVOVISION™ provides powerful capabilities for the user-friendly real-time management of multiple electronic gaming machines (EGMs). The NOVOVISION™ Inventory allows operators to configure and manage all EGM parameters according to the capacities of the SAS protocol. Together with the NOVOVISION™ Floor Control, it enables the seamless integration of machines into the gaming floor as well as the real-time floor monitoring and comprehensive alerts management, including issue tracking and staff tasks assignment as well as player details accessible straight from the map. This centralized approach allows operators not only to optimize their daily business and technical EGM maintenance but also to make data-driven decisions and slot floor adjustments to maximize revenue.

REPORTING

NOVOVISION™ offers customizable reporting that generates various reports on gaming, player activity, marketing, and financial performance. These reports provide valuable insights into casino operations and can help casinos make informed decisions to improve their offerings and increase revenue.

PLAYER MANAGEMENT

NOVOVISION™ provides robust player tracking and customer activity reporting capabilities based on in-depth player profiles detailing individual preferences, bonus status and promotions. This feature can help operators analyse player activity and make data-based decisions to optimize their slot floor as well as create personalized complementary offerings and promotional activities to increase player loyalty and retention.

ACCOUNTING

NOVOVISION™ handles multiple payment methods and currencies, automates accounting, auditing and reporting, and provides detailed financial analytics. This allows the operator to optimize revenue and expenses, increase profitability, reducing the risk of financial loss and ensuring compliance with financial regulations.

Your biometrically supported customer access & registration management

Regulatory and operator requirements demand that every gaming venue has an access control system in place to fulfil the requirements for responsible gaming, the protection of minors and relevant security aspects as well as the operator's wishes with regard to CRM, player tracking and loyalty.

NOVOVISION™ access provides a highly customizable and sophisticated access solution that caters to the most discerning demands of a modern gaming operation with the effect of granting fast and easy access for the guest.

The NOVOVISION™ access set-up can be customized with an NFC card reader, fingerprint scanner and face recognition. In particular, the option of using biometrics for customer identification and/or verification ensures a smooth entry process for the guest and maximum operational

CUSTOMER ENROLMENT & REGISTRATION

The basic NOVOVISION™ registration desk consists of a workstation, an NFC card reader and an OCR document scanner (e.g., Desko, ScanID, Fujitsu or alternatively, the Document Scan Feature via smart phone). The initial enrolment process includes the creation of a new data record, the verification and check of the customer ID against a series of lists and registers (AML, PEP list, government and casino blacklists, etc), customer submission to the terms and conditions and the issuing of a non-transferable NFC player loyalty card.

Subsequent to the initial registration, the customer can enter the venue by scanning their player card or token at a NOVOVISION™ Interactive Reader Module plus having their ID checked for verification. Alternatively, operators can also choose to issue a one-off QR access code via ticket or electronic transfer to the customer device.

ADDING BIOMETRICS TO THE GAME

For the biometrically supported registration via face recognition, the customer's facial picture is linked to an NFC-card or token. The card or token is subsequently used for identification and facial recognition for verification. At each return visit, the register queries are automatically executed at a NOVOVISION™ Face Recognition Terminal before access is granted

For customers who have agreed to biometrically supported initial registration including a fingerprint template, a simple scan of the fingerprint (without an ID) will be sufficient for fully automated access queries on subsequent visits.

access

All NOVOVISION™ access terminals use an open interface for smooth communication with other units and devices of the access system, e.g. CRM modules, sliding doors, turnstiles etc.

Your state-of-the-art and secure cash management & payment solution

NOVOVISION™ *pay* is a portfolio of cash management and payment solutions that cater to all modern POS requirements, from small venues to all types of environments with high customer traffic. The cash terminals and cash machines are based on state-of-the-art technologies, incorporating reliable and secure software, patented security mechanisms and solid high-quality hardware with premium OEM components. A wide range of options, including biometrics, guarantee maximum usability and customer convenience as well as a high degree of customization to meet regulatory compliance or individual operator requirements.

pay

A wide range of cash management & payment functionalities, including biometrics, guarantee maximum efficiency, usability and customer convenience.

NOVOVISION™ *wallet*

Your 360° solution

The NOVOVISION™ *wallet* substitutes costly TITO tickets and printers by enabling the virtual transfer of credits among gaming machines and betting terminals, payouts at cash desks and cash machines, payments at vending machines, catering, casino hotels and even online.

The NOVOVISION™ *wallet* is able to interconnect land-based operations with online platforms, hence representing a true 360-degree solution. Multi-site operations linked via a central server allow the transfer of credits among all locations connected. The medium for identification can be a smart card, a biometric feature like fingerprint, a mobile phone with the use of dynamic QR code technology, or a password for online activities.

wallet

The NOVOVISION™ wallet grants players real-time mobile access to their cash and promotional credits in a single, fully virtual wallet: maximum convenience for the guest and real-time cash control for the operator.

NOVOVISION™ *smart*

Your all-in-one digital wallet & player engagement platform

Through its semi-modular architecture, NOVOVISION™ *smart* provides a uniquely tailor-made approach to casino app development. By aggregating available data from the various CMS modules and applications and delivering them via smart device apps, NOVOVISION™ *smart* facilitates user-specific content distribution – wherever it is needed and to whom it concerns.

NOVOVISION™ *smart* STAFF APP On-floor notification & reaction in real-time

The NOVOVISION™ suite of smart applications also includes a notification app for gaming floor staff. Via the NOVOVISION™ *smart* STAFF APP, technical, service and security staff will receive notification of any defined event according to their user role. This ensures that they can react to these notifications fast and precise, and that every member of the team has instant access to all relevant information.

- Category filter for types of events
- Individual user role & permission management
- Real-time notifications & alarms
- Floor events, e.g., technical and EGM maintenance issues
- Check-in/out notifications, e.g., VIP arrivals

NOVOVISION™ *smart* PLAYER APP Your multi-functional smart customer service hub

The NOVOVISION™ *smart* PLAYER APP is the next-level player card: It aggregates data from the casino management system, and presents your guests the information they look for – fast and easy. For example: the player's recent wallet transactions, current jackpot levels, casino news, events, promotions, tournament registration & buy-in, ...

Players can use the NOVOVISION™ *smart* PLAYER APP to login at the EGM via QR code, just by scanning the QR code of the PTM display with their smart phone. They can also use the app to transfer funds to gaming devices, and with the most recent integration of online payment service providers (PSP, e.g., HiPay), players can now use the app to top up their funds directly from their credit card or bank account.

smart

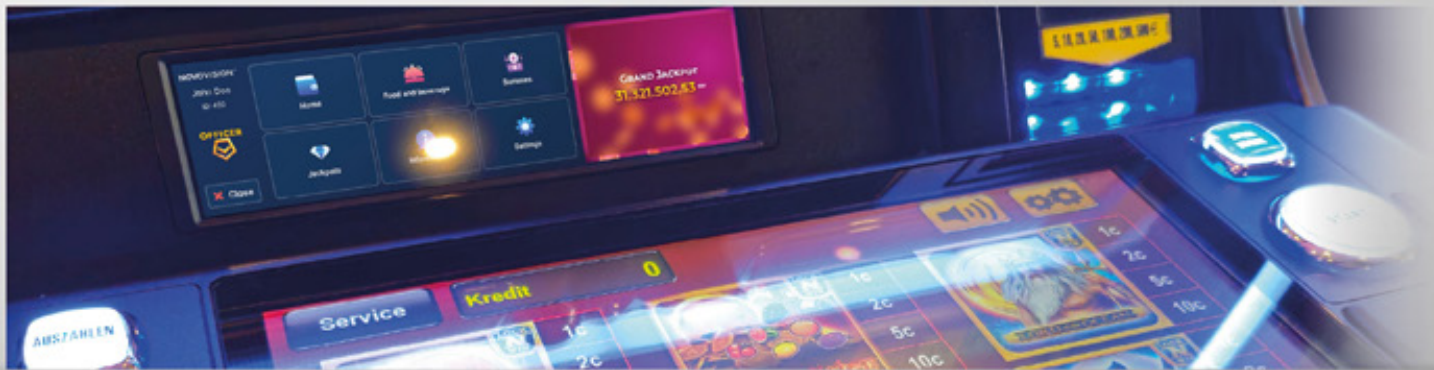

Your customer retention & promotion system

NOVOVISION™ *promo* is a unique customer retention & promotion solution that comprises a wide-ranging set of features and settings for sophisticated loyalty strategies. At the centre of it is a complimentary game embedded in a user-friendly stand-alone terminal directly at the POS, that acts as a returning point for the customer and helps increase the number of return visits of registered players within specified time periods.

The type of promotion will be individually customized according to the specific operator strategies; they might be cashable prizes, promotional credits or loyalty points which can be exchanged in the casino's Loyalty Store for a variety of amenities specified by the operator.

Players can earn loyalty rewards for their initial registration, return visits, play on video slots or at the live tables, and at the same time leave a track of valuable information in the system. Additional bonuses such as the Birthday Bonus, Collector Bonus, Match Bonus and many more create extra highlights and surprises for the returning player.

Build an appreciative customer journey

Every relationship is based on the harmony of give and take. With a unique customer journey in your venue, you can add extra benefits to the gaming entertainment experience and build a lasting relationship with your players, giving them more for their loyalty:

- **Create** your own loyalty strategies and promotions.
- **Build** up a dynamic loyalty tiers structure based on your player demographics & preferences.
- **Set up** a sophisticated currency table for loyalty achievements.
- **Design** desirable cashable and promotional rewards.
- **Surprise** your loyal customers on a regular basis.
- **Treat** your VIPs like they have never been treated before.

promo

NOVOVISION™ *tables*

Your live table games support

The casino industry is constantly looking for modern improvements to the complex field of Live Gaming. NOVOVISION™ offers a variety of tools that assist in performing all the tasks necessary for operating live table games.

Live Table Accounting

It is quite a challenge for casino operators to keep a clear picture of things going on in the pits concerning turnover of live tables. NOVOVISION™ helps keeping track, gives an overview of turn-overs, and is highly supportive in tasks such as daily settlement. The accounting system is extensively adaptable to individual and legal circumstances. Customized reports can be generated.

The NOVODROP

As a sophisticated extension of Live Table Accounting, the NOVODROP acceptor is available for integration into the live table. Cash payments fed into the device as single banknotes or in bundles are automatically counted, registered in real-time and securely stored.

Live Table Loyalty

Player loyalty at the live tables is usually the responsibility of the pit boss: Overseeing a number of tables, he awards bonuses to qualified customers, typically high-rollers. NOVOVISION™ *tables* facilitates this process through an automated electronic system on a tablet PC that helps to calculate bets and individual player turnover, thus enabling appropriate bonuses to be awarded to qualified players. The system is highly customisable according to a variety of parameters.

Live Player Tracking Face recognition for live tables

As an innovative extension for the Live Table Loyalty functionality, NOVOVISION™ *tables* also offers a face recognition system for live tables. Usually, the system works with two cameras hidden in unobtrusive poles, that are strategically positioned at an ideal angle to capture all players' faces in front of/around the table in real-time. The system checks their facial images against the database of registered customers, automatically identifies a match and displays the player profile in the Live Table Loyalty App for the pit boss.

tables

NOVOVISION™ tournament

Tournament management has never been so easy

The NOVOVISION™ tournament module enables you to plan, organize and manage your own live table tournaments and even leagues, with full administrative control of the events at the tables.

The functionalities include detailed settings for the game types, chips, rounds, buy-ins and prizes as well as table and player management, thus significantly reducing the administrative effort and making the organisation of Poker tournaments basically a breeze. The application also enables you to manage the tournament display content as well as messaging and sound notifications for an unlimited number of screens. NOVOVISION™ tournament supports a variety of card games, e.g., Poker variants, Black Jack, Baccarat/Punto Banco.

MAIN MENU:

- **Template management:** Define, duplicate & configure templates for future tournaments.
- **Maintenance mode:** Active management of ongoing tournaments in real time.
- **Archive:** Full history of all events performed during the tournaments.

tournament

The application is fully integrated with the NOVO-VISION™ cashdesk for the tournament registration as well as the players' buy-ins & prize wins directly via their NOVOVISION™ wallet.

Media content management at your fingertips!

With NOVOMATIC *AbsoluteVision*™ you can configure and manage digital signage content for your own specific display layout via one real-time control center – at any time in any place.

AbsoluteVision™ is a sophisticated digital signage system comprised in a flexible one-stop-shop hardware and software solution. The system consists of a web-based control center, the media players and all the assigned displays. To meet the diverse requirements of these fields of application, *AbsoluteVision*™ supports a broad variety of displays such as single screens, video walls, free form arrangements, LED walls & signage, EGM toppers, end of bank signs as well as jackpot displays of all sorts and sizes.

The *AbsoluteVision* v2 Player Jackpot Signage Experience

The capabilities of the *AbsoluteVision* Jackpot signage Experience help create more dynamic and player-focused jackpot presentations that deliver unique, fun and immersive gaming entertainment for the player as well as maximum impact on the casino floor.

- Enhanced jackpot display with intuitive GUI and customization options
- Dynamic win animations and exciting overlay effects for maximum floor impact

For more information please contact:
NOVOVISION™ – The visionary solution
nbs@novomatic.com · www.novomatic.com/novovision

- Customizable styles and popular themes such as MONEY PARTY™, CASH CONNECTION™ and XTENSION LINK™
- EGM interaction interfaces trigger special animations or overlays on EGM events
- Flexible display support for a broad range of jackpot signs in various shapes, e.g. flat, ring-shaped, 3- and 4-sided, oval or multi-surface setups with filler modules
- Colour-adaptive design with engaging animations triggered directly by game play
- More than 50 currencies and custom number formatting supported

NOVO Cash XCHANGE

As a brand of the German technology supplier LÖWEN ENTERTAINMENT, NOVO Cash combines the cash management know-how of the entire NOVOMATIC Group and provides proven cash handling kiosks for the gaming industry, including casinos, arcades, motorway services, FECs, pubs and betting shops.

End-to-end payment solutions including the state-of-the-art XCHANGE kiosks featuring cashless, TITO and biometric technology, as well as barcode and QR code tickets. Players have multiple options with bank cards, notes, coins, tickets, cards, vouchers and fingerprint.

The NOVO Cash XCHANGE series stands for more than just a money changer or redemption kiosk – it combines all functionality available for casinos, gaming facilities and sport betting stores in one, multi-functional device. You could call it a crossover model, like in the automotive industry.

The NOVO Cash X-Software is available on all machines, provides detailed statistics and reports both at the machine and remotely, as well as a raft of configurable options to operate the kiosk in a customised way. In addition, the NOVO Cash devices can be integrated into all casino management systems; many interfaces have already been implemented.

Although we are talking about a cross-system solution and the customisation of the XCHANGER, various products have proven particularly successful and established themselves in specific areas. We would therefore like to divide the products into three categories below to help you choose the perfect product for your application.

We distinguish between the product areas CASINO, ARCADE and NOVO Cash Recycler, which support a new product approach due to the high recycling volume of banknotes.

International Sales: Axel.Steinhagen@loewen.de

Feature Overview

TITO

Redemption and charging of tickets

CARDS

Redemption and charging of accounts

BIOMETRIC

Redemption and charging of accounts via fingerprint

Modern Cash Kiosks

Innovative Money Changers and Redemption Kiosks

NOVO Cash Casino Master NEO*

CASINO

Redemption machine for integrated resorts, casinos and big amusement arcades

Wherever large capacities and maximum safety are required the NOVO Cash Casino Master is the right choice. It combines some of the fastest, highest capacity and most secure components available. With features such as TITO, Cashless and Biometrics, the robust security cabinet features fast-action bank-note dispenser CDM 6240 with 5 cassettes for up to 11,000 banknotes. A large 19 inch touch screen guarantees an intuitive and convenient operation.

NOVO Cash X4*

CASINO

ARCADE & VLT

The compact redemption machine

Perfect functionality in a compact format, this is the NOVO Cash X4. Despite its very compact dimensions the NOVO Cash X4 offers almost all the functions of the larger devices. The 10 inch (or 21 inch optionally) high resolution touch screen guarantees a user-friendly operation. With its banknote dispenser F53 up to five cassettes for a maximum of 2,500 banknotes are possible. A biometric option via fingerprint is also possible.

NOVO CASH X6+*

ARCADE & VLT

Perfect redemption machine for automated cash handling in casinos, arcades and sports betting shops

The NOVO Cash X6+ is a true allrounder. With its 15 inch (or 24 inch optionally) touch screen it offers optimal operability. Up to 4 cassettes offer a capacity of as many as 4,000 banknotes. A banknote validator with large banknote cashbox is available. 6 hoppers guarantee cent accurate payouts. Here you can choose between 3 banknote recyclers: JCM UBA Pro-RC200, JCM UBA Pro-RQ Quad or Bill-to-Bill 300.

Modern Cash Kiosks

Innovative Money Changers and Redemption Kiosks

NOVO Cash X8*

ARCADE & VLT

Innovative money changer and redemption machine

The NOVO Cash X8 is the right choice for all applications where high capacity is required. Up to two banknote validators are possible at the same time. Up to 3 cassettes offer a capacity of as many as 6,600 banknotes. Of course, the X8 also offers 6 hoppers for cent accurate payouts. A large 24 inch touch screen with video advertising area guarantees a simple and convenient operation.

NOVO Cash X8 MRX*

NOVO CASH RECYCLER

More Functions. More Capacity. More Performance.

At the heart of the new NOVO Cash X8 MRX is the powerful banknote recycler JCM MRX. This high-tech component enables extremely fast banknote verification and processing, as well as the deposit and withdrawal of up to 30 banknotes at a time. Up to 480 banknotes of all denominations can be integrated into the banknote recycling system. Its striking features include a wide housing, an ergonomic 24-inch monitor, and a colorful front design with a blue LED light running around the edge.

NOVO CASH X10*

NOVO CASH RECYCLER

Bank-Level Cash Processing

A certified safe in the X10's security housing provides double security. Up to 3,600 banknotes and four denominations for recycling are reliably protected. A special banknote compartment allows up to 200 banknotes to be accepted and dispensed at the same time. Up to 7,000 2-euro coins are paid out at a speed of approx. 20 coins per second. When security, capacity, and efficiency are crucial, the X10 is the right choice!

ABOUT THE COMPANY

The NOVOMATIC Group

The NOVOMATIC AG Group is, as a producer and operator, one of the largest gaming technology groups in the world and employs about 20,000 people. The Group was founded by the industrialist Professor Johann F. Graf in 1980 and has locations in about 45 countries, and exports innovative gaming equipment, system solutions, lottery system solutions, and services to more than 130 countries. The Group operates gaming terminals and video lottery terminals (VLTs) in its more than 1,400 own electronic and regular casinos, as well as via rental models.

The NOVOMATIC AG Group is active as a full-service provider in all segments of the gaming industry through its numerous international subsidiaries, offering a comprehensive omni-channel product portfolio for partners and customers worldwide. This ranges from terrestrial gaming products and services, through management systems, cash management solutions, and online, mobile, and social gaming solutions, to lottery and sports betting solutions, as well as a whole host of other first-rate products and services.

Gaming Innovation starts here

NOVOMATIC has an excellent reputation for innovative high-tech gaming equipment and content that is characterized by premium quality and reliability. Operators value the fast ROI, low maintenance costs and first-class after-sales service and support. The Group comprises modern production facilities at the Austrian headquarters, the Netherlands, Germany, Italy, Poland, Spain and Hungary, as well as in the USA, Australia, amongst others. Top quality management and ISO certification policy are mandatory.

As a manufacturer with a global footprint, NOVOMATIC attaches great importance on its corporate sustainability policy. Through an optimized production ecology and resource efficiency, as well as sophisticated environmental management policy, the Group aims to keep the ecological footprint to a minimum. NOVOMATIC is therefore successively implementing photovoltaic systems at the headquarters and in central core markets.

Research and development are important cornerstones of the NOVOMATIC business model. 31 technology centers in 18 countries represent world leadership in the development of innovative technologies, system solutions, and promising products for the land-based, online, mobile, and social gaming segments.
