

Global strength, local responsibility: NOVOMATIC once again recognized as a leading company

NOVOMATIC AG has been recognized as an “Austrian Leading Company” for 2026/2027 by the independent excellence platform Leitbetriebe Austria. The certification honors companies that consistently combine economic strength with responsible corporate behavior.

Gumpoldskirchen, February 12, 2026 – NOVOMATIC has been a certified leading company since 2013 and this prestigious status has now been confirmed once again following a comprehensive screening. The evaluation process, which takes place every two years, ensures that certified companies meet the highest quality standards. Decisive criteria include sustainable corporate goals such as innovation, growth, and targeted employee development. As one of Lower Austria’s largest employers and a substantial taxpayer, the international gaming technology group makes a sustainable contribution to Austrian value creation. At the same time, NOVOMATIC is pursuing a long-term ESG strategy that combines economic performance with ecological responsibility and social sustainability.

“Long-term corporate success is based on stability, innovative strength, and a clear sense of responsibility towards employees, society, and the environment,” emphasized **NOVOMATIC Executive Board Member Stefan Krenn** as he received the certificate at the Group’s Lower Austrian headquarters alongside fellow **Executive Board Members Ryszard Presch** and **Johannes Gratzl**. “This renewed recertification as a leading company confirms our strategic orientation and our commitment to combining economic strength with sustainable corporate management.” **Monica Rintersbacher, Managing Director of Leitbetriebe Austria**, also emphasized the significance of the award: “For many years, NOVOMATIC has been exemplary in the areas that define a leading company: international technological innovation on the one hand and a clear commitment to its location, employees, and society on the other. With this renewed award, the company is underscoring its role as a stable driving force for the economy and employment in Austria.”

This recertification confirms NOVOMATIC’s position as an economically reliable and responsible company both nationally and internationally.

About NOVOMATIC

The NOVOMATIC AG Group is, as a producer and operator, one of the largest gaming technology groups in the world and employs more than 26,000 people. The Group was founded by the industrialist Professor Johann F. Graf in 1980 and has locations in about 50 countries, and exports innovative gaming equipment, system solutions, lottery system solutions, and services to more than 130 countries. The Group operates gaming terminals and video lottery terminals (VLTs) in its own approximately 2,000 electronic and regular casinos, as well as via rental models.

The NOVOMATIC AG Group is active as a full-service provider in all segments of the gaming industry through its numerous international subsidiaries, offering a comprehensive omni-channel product portfolio for partners and customers worldwide. This ranges from terrestrial gaming products and services, through management systems, cash management solutions, and online, mobile, and social gaming solutions, to lottery and sports betting solutions, as well as a whole host of other first-rate products and services.
